## RESPONSE TO RESTRICTION REQUIREMENT

## REMARKS

The Office Action of January 13, 2003 has been reviewed and its contents carefully noted. Reconsideration of this case is earnestly requested. Claims 1-15 remain in this case.

The Restriction Requirement

The Examiner has made a Supplemental Restriction Requirement, stating that "Group I claims are hereby restricted to polynucleotides of the group SEQ ID NO: 1-5, of the group (a)-(e). Applicant needs to elect one of these SEQ ID Nos. for further prosecution." The nature and legal basis of the Restriction Requirement are not clear, however, the Examiner appears to require an election of one of the species encompassed by the Markush group of Applicant's claim 15. More particularly, the Examiner apparently requires Applicant to elect one of the sequences of claim 15.

The requirement for restriction and/or election, as best understood, is respectfully traversed. However, in the interest of moving prosecution forward and to avoid abandonment of the application, **Applicant hereby elects SEQ ID No: 4 for search and examination.**

The MPEP states the following with regard to stating a *prima facie* case of restriction between patentably distinct inventions:
